

SMART CEILING EXHAUST FANS SERIES

PRODUCT INFORMATION

Smart ceiling exhaust fans are designed to ventilate spaces by removing stale air, moisture, and odors. They are commonly used in various settings and feature 50%-100% speed control and a timer ranging from 5 to 60 minutes. The fan body is made of high-quality metal and plastic and can be controlled via the Hypnotek app, a remote control, or directly on the fan to adjust humidity and timer settings. The motor is thermally protected for added safety.
